

# LIGHT BOX

**Illuminate your company brand or product with our free-standing portable fabric lightboxes !**

Our lightboxes are bright, attractive and easy to use. The lightweight frames has a smooth outside finish, with two sturdy feet for stabilization. The printed graphic banners (Silicone Edge Graphics) have a frame-less appearance when viewed from the front and offer and plenty of advertising space.

These illuminated fabric displays are highly versatile, making them suitable for a wide range of events such as exhibitions, tradeshow, conferences, POS and networking. In addition, they work particularly well in retail spaces and shopping centers.

# HOW — DOES IT — WORK?

**The Light Box is the first mobile and illuminated presentation system made of plastic.**

The flexible plug-in system is based on lightweight plastic profiles covered with textile prints and backlit with integrated LED modules.

For quick assembly and dismantling, without any tools, you don't need a previous technical knowledge. All parts are packed in a practical carrying bag.

Step 1

Install the bases

Step 2

Connect the parts

Step 3

Build the structure

Step 4

Add the banner and plug-in
