

MO — — DU LAR —

Our Modular solutions is adapted to all your desires.

The structure with an aluminum frame, combines stability and design.

You can connect several structures together to create different configurations in L or U. We offer you a wide range of accessories.

HOW — DOES IT — WORK?

Our MODULAR range will give you the visibility you need.

With his silicone finishes and models, the Modular will be your best showcase for your products. The installation is very fast and does not require any tools.

The versatility of Modulares get one of the absolute best displays on the market.

Step 1

Unfold the modular

Step 2

Build the structure

Step 3

Install the banner

Choose your options and add accessories :

MODULAR

Get inspired from our event sets which can be stand alone or be part of bigger exhibition or event booth.

Mixed it with our LED ladder light box panels and provide direct graphic illumination throughout the entire front and side graphic panels.

Designed your booth with simple backwall, L shape stand or complete booth solution with storage room, bridges and lights.
